Redefines the processing of natural stone:
对岩石加工的重新定义:

SANME

MP-PH Series Mobile Impactor Plant has the innovative features as follows:

山美MP-PH系列履带移动反击式破碎站具有如下创新点：

A number of innovative functions make the SANME MP-PH Series Mobile Impactor Plant an interesting processing plant for the aggregates as well as for the recycling industries:

一系列的创新能力使得山美 MP-PH 系列履带移动反击式破碎站成为令采石场和回收行业非常感兴趣的破碎站：

Features and Benefits

主要特点和优点

- 1** The vibration feeder is fitted with a two-deck grizzly section for an optimum pre-scaling, thus maximizing the total performance and reducing wear.

装有两层格栅的振动给料机使预筛分较优，因此使整体性能优良并且减少了磨损。
- 2** The material, which has already the required grain size, is conveyed via a bypass past the impact crusher directly to the discharge chute. Thus the efficiency of the complete plant is increased.

满足粒度要求的物料无需进入破碎机而经旁路溜槽直接落到反击破碎机下面的皮带上，因此提高了系统的效率。
- 3** The MP-PH crushing plant is fitted with the field-tested impact crusher. The hydraulic controlled impact crusher guarantees a constant product quality and high availability.

MP-PH 系列破碎站配备性能优异的反击式破碎机，具备液压控制系统的反击式破碎机确保了恒定的产品质量和高可用性。
- 4** The active hydraulic permit a trouble free material flow via the movable inlet plate of the impact crusher.

液压系统通过控制反击式破碎机的可活动反击板，可使不可破碎物顺利通过破碎机。
- 5** The diesel-direct drive in combination with a CATERPILLAR motor allows for a maximum performance at a small amount of space.

柴油机直接驱动结合卡特彼勒电机使性能在小空间的条件下更佳。
- 6** The processing plant is easy to operate with the remote control.

通过遥控装置可以方便的操作移动破碎站。
- 7** Magnetic separator, lateral discharge belt and water spray system are optionally available as approved modules.

作为模块设计，除铁器、侧出料皮带和喷水系统是可选装的。
- 8** For the optimization of performance and availability the mobile processing plant is operated by an intelligent control in the background.

采用智能控制的移动式破碎站能够达到较优的性能。

SANME MP-PH Series Mobile Impactor Plant, the cost of which has been thoroughly optimized, convinces by its stability, wear cost which are considerably below average, long maintenance intervals and minimum set-up times.

山美 MP-PH 系列履带移动反击式破碎站的成本完全优化，具有稳定性、低于平均水平的磨耗成本、较长的维修间隔和更少的安装时间。

MP-PH Series Mobile Impactor Plant is one of the most economical impact crushers of its class.
系列履带移动反击式破碎站为其同等级中经济性优良。

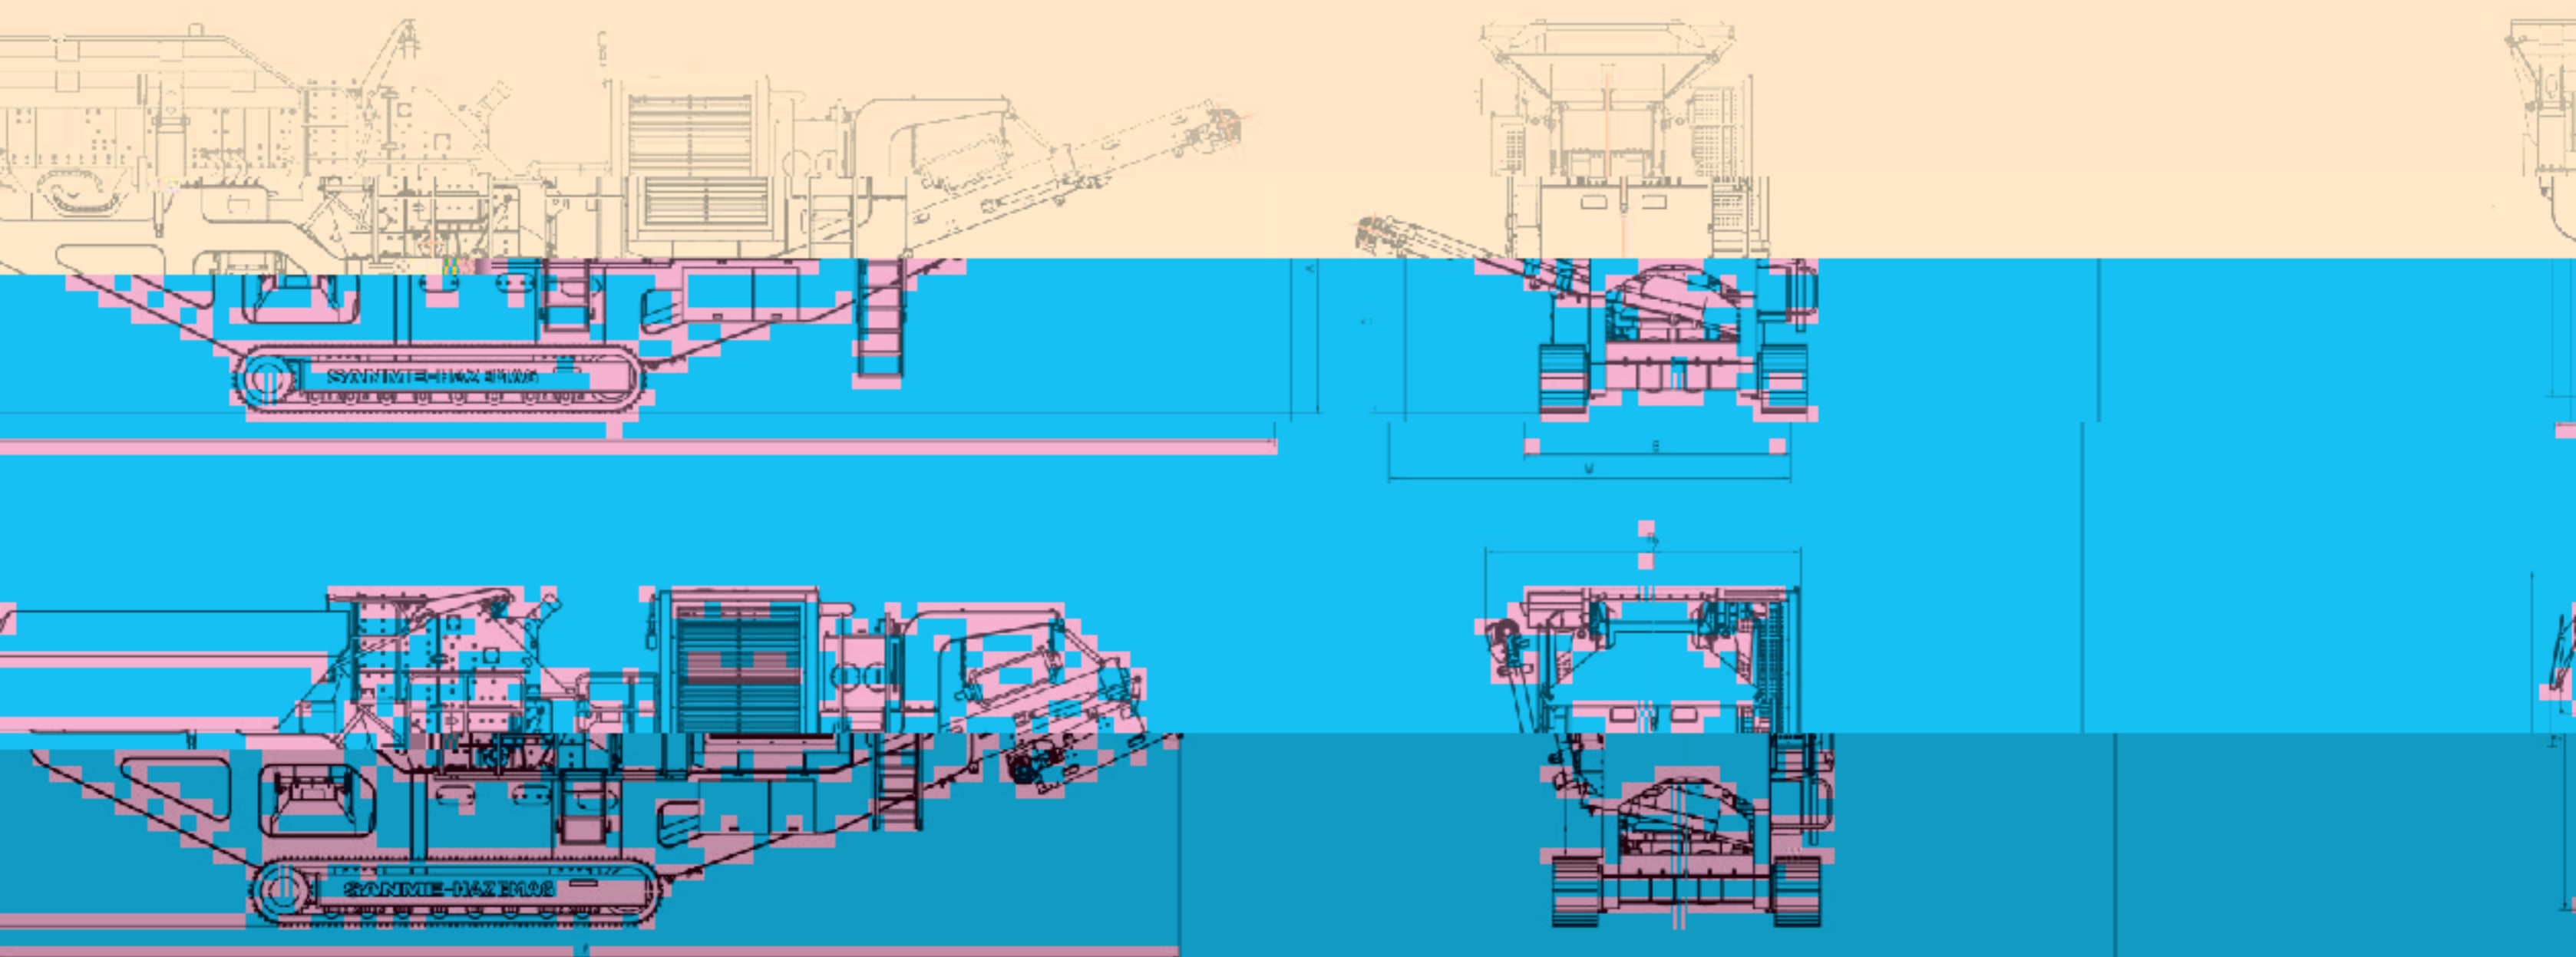

SANME MP-PH
山美 MP-PH

With the SANME MP-PH Series Impactor Plants convince by a flexible applicability, it processes reinforced concrete, bricks and asphalt with the directly driven impact crusher into high-quality final products. An excellent mobility, a high performance at a comparably low weight and an efficient drive permit mobile economic crushing.

With the
limestone,
grain sizes
a remarkab

之，山美 MP-PH 系列履带移动反击式破碎站具有灵活的应用，通过直驱的反击式破碎机，它能将石灰石、钢筋块和沥青混凝土加工成高品质的产品。移动性佳，性能优异，加工成本低。

总而言
筋混凝土、碎
